

## Understanding Directions

### Directions

1. Tell your child you are going to play a game and they must listen very carefully as you tell them what to do.
2. Make your directions as silly and fun as you can.

### Concepts

in                    in the middle of

on                    around

near                inside

far                  on top of

from                under

behind            over

in front of

\*Incorporate animals into the directions also... the crazy lion ran around the box, the frog jumped over the box backwards, and the zebra skated on top of the ice.
