

Animal Masks

Materials Needed:

Paper plates, scissors, yarn, feathers, felt, glue, shoe laces, pipe cleaners, cotton, markers, tongue depressor etc...

Directions:

- Take a paper plate and cut holes for eyes, nose, and mouth.
- Add animal features such as yarn for a lion's mane, feathers for a bird, or spots for a leopard. Add ears, noses, or beaks; whiskers made from pipe cleaners, spots with felt, and hair with yarn. Make beaks by folding paper so it is doubled and then cutting out a triangle. Use markers to add details such as stripes, eye brows, or lashes.
- Attach shoe laces or yarn to the paper plate mask so they can be tied on or glue a tongue depressor so the mask can be held in front of a face.
