Sock Toss

*Get a laundry basket and roll up a pairs of socks (if you have 5 pairs that would work).

*Put the basket around the room and have your child throw the socks into the basket (count the socks as your child tosses them in).

*Put the basket on top of a table or just about anywhere.

*You can add more pairs of socks and count up to 10.

*Maybe the basket is worth 2 points so count by 2's.

*Maybe the basket is worth 5 points so count by 5's.

*Maybe the basket is worth 10 point so count by 10's.

*When you take the socks out of the basket you can count backwards by the number.

*Count ON!
