

SEASONS

Months

In January falls the snow;

In February cold winds blow;

In March peep out the early flowers;

In April fall the sunny showers;

In May the roses bloom so gay;

In June the farmer mows his hay;

In July hotly shines the sun;

In August harvest is begun;

September turns the green leaves brown;

October winds then shake them down;

November fields are black and sere;

December comes and ends the year.
