

# Big Gray Elephant

The big gray  
elephant slowly walks.  
she doesn't make a sound.

She swings her trunk  
from left to right,  
left to right,  
left to right,  
when she puts her  
feet on the ground.

Swing, swing, left and right,  
left and right,  
left and right,  
she doesn't make a sound.
