

1 cent is a  
penny,

1

10 cents is a  
dime,

2

5 cents is a  
nickel,

3

Oh, pennies,  
nickels, and  
dimes!

4

But, don't forget  
the quarter.

5

It's really worth  
the most,  
25 cents a quarter  
can boast!

6
