

Building Numbers

Before Playing:

1. Run off the Number Scale.
2. Cut up the number squares with the numbers, remember to cut horizontal so you have the correct amount of squares that go with the numbers.

Directions

1. Put the numbers back in order.
2. Put the numbers from largest to smallest.
3. Start at a number and count backwards.
4. Split the numbers up and each person lays down a number and you tell which number is bigger. Can you tell how much bigger?
