

## Division Index Card Fun

1. Remember that if you know your multiplication facts you know your division facts.
2. Write the division problem on one side of an index card and the answer on the back. (You can get the division problems from Mastering Division Facts.)
3. Then mix up all the index cards and go through the division problems saying the answers.
4. Time yourself and see how fast you can go through all of the division problems. Once you have a time, see if you beat your own time.
