

Multiplication Table Games

Before Playing:

1. Run off two multiplication tables.

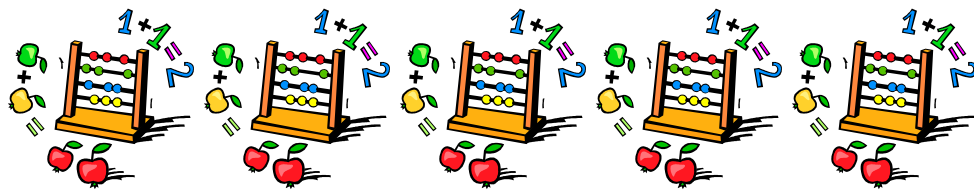

Directions:

1. Each person takes a multiplication table and asks the other person a multiplication problem.
2. One person states a number (1-9) and the other person has to say the number sequence (9, 18, 27, 36...)
3. One person states a multiplication problem and the other has to quickly tell the answer.
4. Be creative and come up with your own multiplication games!
