

# Paper Folding Fractions

You will need 5 sheets of paper and 5 different color crayons.

## Folding Fun

1. Fold your sheet of paper in half and label each section  $\frac{1}{2}$  with one color.
2. Take another sheet of paper and fold it in half and the fold it in half again. Label each section  $\frac{1}{4}$  with another color crayon.
3. Take another sheet of paper and fold it in half and fold it in half again, then one more time fold it in half. Label each section  $\frac{1}{8}$  with another color crayon.
4. Take another sheet of paper and fold it in half and fold it in half again. Then fold it in half again and fold it once more in half. Label each section  $\frac{1}{16}$  with another color crayon.
5. Take a sheet of paper and DO not fold it. Label it 1 with your last color crayon.
6. Lay out all of your sheets of paper.

## Questions

- \*Put them from the largest to smallest fractions.
- \*How many  $\frac{1}{2}$  equal one sheet of paper?
- \*How many  $\frac{1}{4}$  equal one sheet of paper?
- \*Come up with your own questions about fractions.
