

## Creative Grid Patterns

1. Talk about the grid patterns that have been started. How can they be completed? See if you can finish them.
2. Next, on the empty grid pattern you can create your own pattern, be as creative as you can. Can you color one square in a different pattern? Can you take four squares and create a unique pattern. Think about quilting as you create your pattern. Then give your grid to another person and see if they can figure out your pattern.
