

Rulers and Yard Sticks

Directions:

1. You will need a ruler and a yard stick.
2. Start with a ruler to find the length. Show your child how to read inches. Then show them where a half inch is located on their ruler. Then show them where a $\frac{1}{4}$ inch, $\frac{1}{2}$ inch, and $\frac{3}{4}$ inch are located within an inch.
3. Let them go wild measuring everything in the house.
4. Then make a game of it. Get two rulers and both of you measure. Say let's try to find something that is _____ inches long.
5. Next, get a yard stick. Go over how to measure using a yard stick. Do the same activities you did with a ruler.

Measure On!!!
